Graphic Design Portfolio

Color

The Trizen Studios Logo is the most important part of the brand, it makes it instantly recognizable from competitors. When implementing the logo on other designs, solid colored, or monochromatic locations, they must be displayed as follows:

Color Rules

Our Primary Color is Cyan, with Black and White used for contrast. An exception is when working on dark backgrounds, where black is replaced with grey. This also applies to gradients derived only from these colors.

Cyan

HEX #00FFFF
RGB 0 255 255
CMYK 100 0 0 0

White

HEX #FFFFFF
RGB 255 255 255
CMYK 0 0 0 0

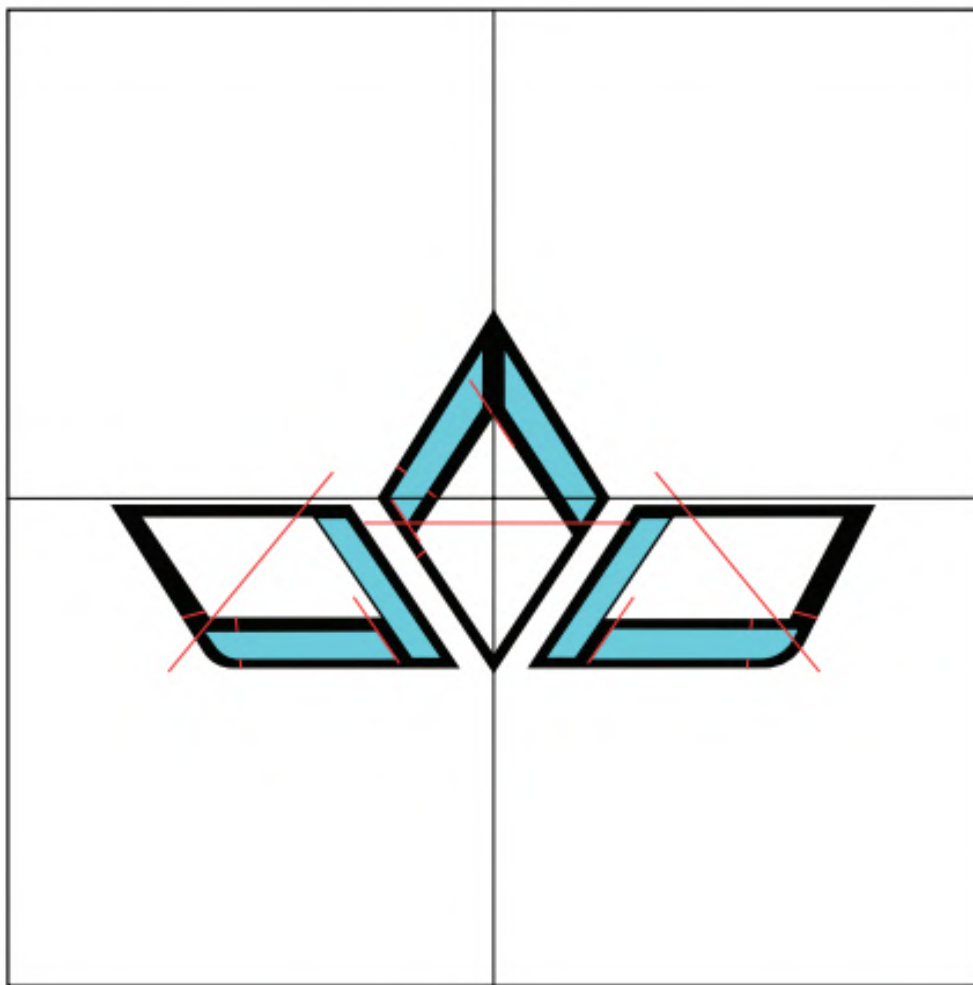

Black

HEX #000000
RGB 0 0 0
CMYK 0 0 0 100

Grey

HEX #717272
RGB 113 114 114
CMYK 100 55

Clearspace

The Trizen Studios Logo is designed with the icon as the "star" of the composition. It should not be encroached upon by other elements surrounding it such as character art, headlines, partner logos, etc., unless licensed for certain approved projects.

Typography

At Trizen Studios, we use our official custom made font used company-wide: TS Pro (Trizen Studio Pro)

Aa

TS Pro Light

Aa

TS Pro Regular

Aa

TS Pro Bold

The creation of TS Pro as a font was inspired by other fonts such as SF Pro (Apple), P22 Underground, and Faculty Glyphic, but adapted to carry an iconic "tiddle", applied to all characters and special characters used.

TS Pro Light
